

WHU-MARS Dataset Release Agreement

Introduction

The WHU-MARS dataset is a multispectral aerial-ground person re-identification dataset developed by the [MARS Group](#) at Wuhan University. The dataset is provided free of charge to researchers for non-commercial academic research only. By downloading, accessing, or using the WHU-MARS dataset, the researcher agrees to the following terms.

Terms of Use

The researcher agrees to the following restrictions and requirements:

- 1. Research Use Only.** The WHU-MARS dataset may only be used for academic and scientific research. Any non-research or commercial use is prohibited.
- 2. Responsibility.** The researcher is solely responsible for the use of the dataset and agrees to comply with all applicable laws, regulations, institutional policies, and research ethics requirements.
- 3. No Redistribution.** The dataset shall not be redistributed, published, uploaded, shared, transferred, sublicensed, or otherwise made available to any third party, whether for profit or not.
- 4. Modification.** Modified versions, subsets, annotations, extracted features, or other derivative data that could reproduce or serve as a substitute for the original dataset shall not be publicly released without prior written approval from the dataset owners.
- 5. No Misuse or Identification.** The dataset shall not be used to identify, re-identify, track, profile, contact, or make decisions about any real person appearing in the dataset.
- 6. Citation.** Any publication, report, thesis, presentation, or public result based on the WHU-MARS dataset must cite the following paper:

Notes

1. The form may be completed in either English or Chinese.
2. Please send the completed agreement by email to zhaoyuxuan@whu.edu.cn. If the application is approved, we will send the dataset download link to the sender's email address.
3. If you do not receive a reply within 7 working days, please try sending the email again from another email address to avoid possible email filtering or blocking.
